This regular publication of The Collectosaurus Project is free to copy and distribute. Enjoy and please help us get the word out about what we are trying to build – thanks for your ongoing support!

The American Football Preservation Project

It's a new year and a new look for the American Football Preservation Project, the first in a series of such efforts!

With this project, this is what to expect throughout 2026 that we've already got prepared and are beginning to publish:

Initial Guaranteed Postings

I. *Collectibles:* High-Quality scans and/or images of trading cards and other collectibles on an easy to browse collectibles website
II. *Game Programs:* Original game program periodicals from leagues and match-ups from throughout the history of the sport
III. *Full Games:* Free to view full games from a variety of leagues and eras as far as copyright law allows

To further fund this project past these initial offerings, we will be running a series of auction campaigns and have setup a Patreon that allows for our fellow Collectosaurs to contribute to the ongoing maintenance and expansion of these initial offerings. The Patreon page can be found here:

https://www.patreon.com/c/collectosaurus

Extended Support Content Postings

If we are able to generate a large enough amount of financial support through sales and donations, we will begin the Extended Support phase of our project as follows:

Extended Support Postings (If Funded)

IV. *Extended Collectibles:* Continued and expanded scan updates and the introduction of additional website features, including for trading
V. *Extended Game Programs:* A massive expansion of our on-website selection and additional acquisitions
VI. *Extended Full Games:* More games, more leagues, the addition of College, High School, and Semi-Pro games PLUS ongoing quality enhancements to existing uploads

What Does Funding Pay For?

- Website: Space & domains are costly!
- Equipment: Better and more varied equipment means higher quality and greater variety content!
- Preservation Supplies: We backup all content on 1000-Year 100-GB Blu-Ray M-Discs to ensure the survival of the history of the sport!
- Storage Space, Legal/Registration Fees, & Utilities: Always expensive.
- Staff: More fairly paid people = more content at a faster pace!
- More Content: Most of what we provide for free isn't free to get!

Content Donation Program

Once we can finish paying the non-profit registration costs we'll be accepting collectibles and other project-relevant content donations that donors will get a tax-deductible receipt for! These contents will be digitally preserved and displayed for all to enjoy and either stored permanently as representative samples or sold to generate revenue for our not-for-profit Preservation Project.

The Collectosaurus Project and The Collectosaurus Store Announcement

We have split into two separate entities in an effort to better accomplish our goals and objectives. The Collectosaurus Project is being setup as a part of a Not-For-Profit while The Collectosaurus Store will become a part of a For-Profit company for the time being. The store will continue to financially support The Collectosaurus Project and also serve as a distribution partner for ongoing fundraising efforts.
